

ANNOUNCING THE FIRST CLASS OF TECHSTARS MOBILITY, DRIVEN BY DETROIT

Techstars Mobility, driven by Detroit is a startup mentorship-driven accelerator program to foster innovative transportation solutions that help alleviate growing global challenges. Hundreds of applicants from around the world vied for 10 spots in the inaugural class.

Techstars Mobility, driven by Detroit is backed by Ford Motor Company, Magna International, Verizon Telematics, Dana Holding Corporation, Honda R&D Americas and McDonald's.

Here is our awesome Techstars Mobility class of 2015:

Ansik makes automotive service quicker and more affordable for everyone.
